

PSYCHOSOMATIC STUDY

One of the more important gifts that the supreme beings offer us is the realization of the psychosomatic study that consists in that they delegate some spiritual beings that visit the person and in common agreement with their Real Being, they examine the vertexes or energy centers, and other things unveiling several characteristics of the transmigración of that human soul.

This study has to be carried out in SACRED ARK that is like a hut with a Gibraltar (read Kosmic Kontakt). But they understands that some people interested in this study that are outside of Colombia don't have ARKS, reason why exceptions are made.

Steps to continue:

- a) To have a physical and psychic disposition (Can not be done in deceit neither for coercion)
- b) To write a spiritual letter (read in technics on the web), in which is specified the day and the hour in that he/she wants carried out the study. The date, the ideal thing is to place them in the cosmic date for example: Gregorian day June 21 correspond to cancer 1 and the 11 of cancer it is July 1, consult this in this web for greater information of the signs <http://www.samaelgnosis.net/astrologia/>.

The hours they are divided in Solar or Jakin and in lunar or Bohaz, being the first Solar hour the 6 am, second Solar hour 7 a.m. and so forth. The first Lunar hour is to the 6 pm etc, this this way for practical ends because the first hour it really begins to the 5:45 am or pm.

Then it would be this way the body of the letter (It head is made like in the SPIRITUAL SETTER, see the web):

I request for the love of Crestus the psychosomatic study the day ___ of (ZODIACAL SIGN) a hour seventh bohaz (12 of the night like example), this with interest of my spiritual evolution etc.

c) For the study the person has to be in a partial fast, that is to say the ingestion of the food the latest by 7 hour, you can consume water or hydrohoney (it dilutes with honey of bees).

d) The study has a duration of approximately 5 hours, if it is at 12 in the night, already to the 6 am its ready.

An appropriate clean, white gear is recommended and to be perfumed

f) If you do it outside of the ark, look for a clean, perfumed room or with incense, to have a glass with water and a li candle (the 4 elements)

g) During the study one can meditate, pray, or to enter to the astral world
