

## SPIRITUAL LETTER

Dear brother thinking and imagining constantly sends signs like those of radio revealing what we feel and we expect from the life, in their great majority the humanity sends thoughts and mixed messages, full with doubts and confusion mixing spiritual aspects with the illusion of the materialism or the physical world. The understanding of this is fundamental because all that is written has more power than that that is said and this more power than what is thought (if it is with honesty).

Many of these messages are captured times later by supreme beings that look to help a human soul and it works in agreement with that it requested sincerely. If there is not clarity in what is wanted or looks for or requested, the results are elementary (minimum).

There's a simple method of showing the spiritual worlds, with the help of a spiritual elementary vegetaloid and of the spiritual service that offers us the spiritual Regency of Anturia, Pegasus and Acirfa.

### STEPS

- 1) To have very clear what is required, we advice meditation before requesting , for example:
  - This being requires orientation in the astral world for my Christic, or Buddhic initiation .
  - I have X problem and requires help solve it
  - Father of mine gives me a sign all that is said in the web [www.cosmiccontact.org](http://www.cosmiccontact.org) is truth

2) When we are ready we write the letter heading it this way :

VIRTUAL VASE                      22 of Leo YEAR 47 DE AKUARIO

THEOKRATIC REGENCY OF ACIRFA

PASSANNA IKKALY

For example the lemon, comes closer to the plant and he/she requests for the Christ's love help of this elementary one, he/she requests the plant some leaves, cut them with a scissor, don't pull them up, later on it macerates the leaves with some water and ready: you have natural consecrated ink.

4) already written the letter, allow it to dry off, perfume it to purify it.

5) the shipment of the letter consists on relaxing yourself, to make a prayer (Our Father,) requests to its internal being helps, burn the letter with the fire of a candle.
