This technique allows to create a reconciling bridge between the lunar order and solar order.

This way, to the interacting of the two hierarchies, the mediation polarizes giving as consequence to discern, mainly the related with these two worlds. The childbirth pains have begun to feel, our nature earth and their igneous spirit will begin to sprout its encouragement on the face of the earth through volcanos and earthquakes and that movicierto will wake up the men of its sexual lethargy.

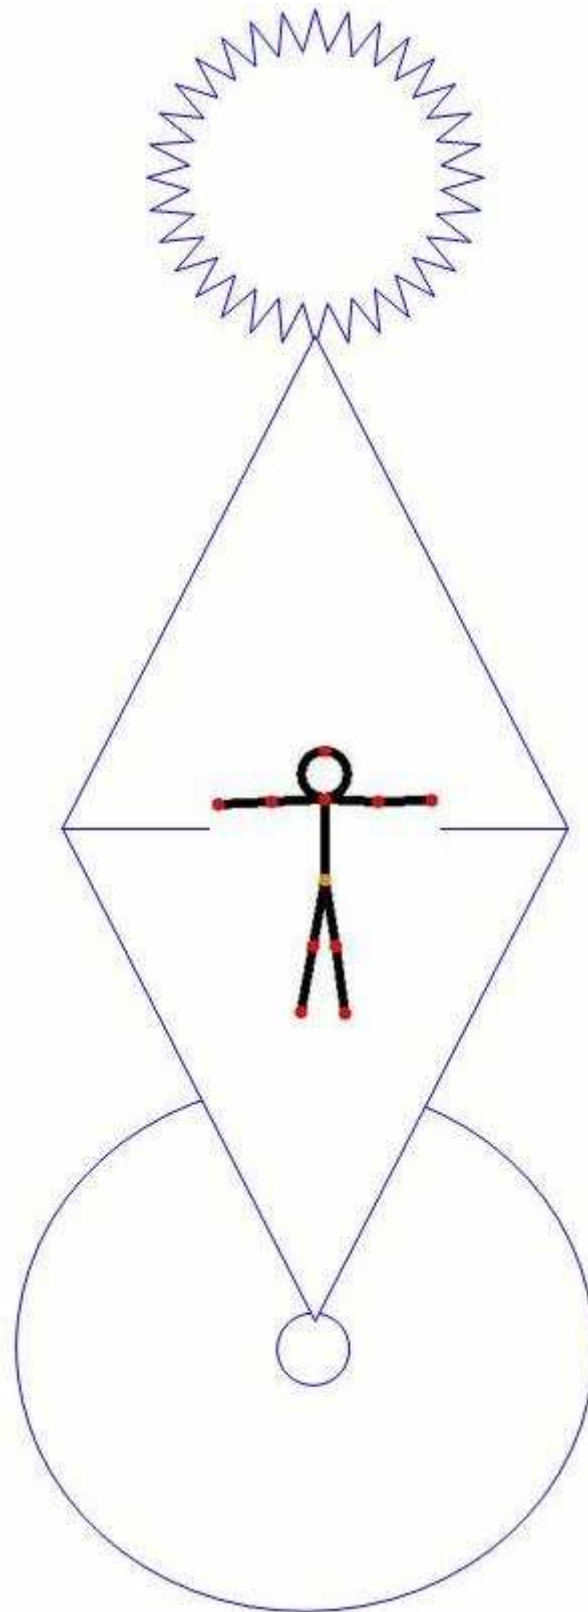

Standing heels together, separate arms, it is inhaled visualizing the center heart glass of the earth deeply, exhales. Now inhale and visualize the sun in the highest. See the moon to your left, sustain these graphs.

Inhale, take the hands to the tips of the feet to the time that you exhale and you intone the mamtrams (SISEL) ssssiiiiisssssseeeeeeeelllllll. You will see the energy coming from the warring angels of the old earth moon, it arrives to you and it goes from the plants of the feet to the center heart of the earth forming the lunar order in him.

Carry out several inhalations until constituting the lunar world. Now invoke the personal virgin so that she helps you to channel that energy, inhale and sustaining the prana, see that the energy of the center heart terra comes to the surface of the earth in cone form, when arriving to the epidermis you exhale.

Inhale again and get that energy to the highest until touching the sun, being the solar king in the superior part of the cone and the moon in their inferior part.

This indicates that you will be in the center of the two cones.

It is the precise instant to enter in deep meditation whose concentration will be the reconciliation of the center heart glass lands and the sun universus.
